Conditions. All advertising material is subject to the approval of the publisher, who reserves the right to decline any material. We cannot accept responsibility for print quality if digital specifications are not followed. Costs will be incurred for any amendments or alterations made by Elsevier as a result of incorrect advertisement specifications.

ADVERTISING SIZES

Full page

Half page landscape

Double page spread

DPS adverts must be supplied as 2 separate full pages with 5 mm bleed and a 3 mm clearance on the inside gutter margin. This is a Perfect Bound publication which requires gluing of the inside page margin – please be aware of this when designing your DPS advert. See the “Document” section below for further info.

Specification	Trim size [w x h]	Type area [w x h]	Bleed size [w x h]
Full page	210 x 280 mm	190 x 260 mm	220 x 290 mm
Half page landscape	210 X 140 mm	190 x 120 mm	220 x 150 mm
Double page spread	420 x 280 mm	187 x 260 mm per page	430 x 290 mm

PRINT SPECIFICATIONS

Software

We advise to generate and amend the artwork in the following design programs: Adobe InDesign, Adobe Illustrator, Adobe Photoshop or QuarkXpress.

We accept

- We accept press ready, high resolution PDF files generated from native design programs through 3DAPv2 settings. The free 3DAPv2 Distiller settings for Windows and MacOS can be downloaded at www.3dap.com.au.

PDF checklist/preflight

- Artwork must be supplied in **CMYK only**, convert all images to **CMYK**
- Check all images/logos are minimum **300 dpi** (lesser resolution will reproduce poorly)
- Check trim size of full page adverts are **210 x 280 mm** and NOT 210 x 297 mm (A4)
- Include at least **3 mm bleeds** (5 mm preferable)
- Flatten all transparency
- Save as an Acrobat 4 (PDF 1.3) compatible file, **PRESS ready** and **NOT PRINT ready**

* If you are generating PDFs through InDesign, Illustrator or Photoshop please flatten any transparent areas within the files before postscripting. For a complete reference and troubleshooting guide on how transparency affects output please refer to Achieving Reliable Print Output from Adobe Applications with Transparency at www.adobe.com/studio/print. There are also other invaluable guides under the headings of Print Resources, PDF & Printing and Colour & Transparency.

We do not accept

- PDFs generated from **Office packages such as Word, Excel, Publisher or Powerpoint;** CorelDraw or Pagemaker.
- Any native files or Quickcut.

Fonts

- We cannot guarantee the best printed results from Photoshop text.
- We do not accept TrueType or CID fonts. Use Postscript fonts or create an Outline of the fonts in Illustrator. Include all printer and screen fonts.

Colours

- CMYK only for both colour images and illustrations.
- When saving files in the Photoshop EPS format do not include halftone screen, transfer function and do not embed colour profiles.
- It is recommended that all black type be made up using process black only, not four colours.
- The maximum total ink weight of the file in any area should not exceed 310% with a 90% black maximum, should use UCR and allow for a 14–18% dot gain.
- Overprint white text should be set to knockout.
- Knockout black should be set to overprint.

Resolution

- Four-colour CMYK – 300 dpi at 100% print size.
- Black & White Line Art – 1200 dpi at 100% print size.
- Please ensure that all images are properly cropped and scaled to as near to 100% of the final advertisement size as possible.

Document

- All live copy must be kept within the type area. This includes all text, images, keylines, key numbers and borders.
- Avoid running small type across the gutter. For headings that need to run across the gutter please allow a minimum of 1 mm clearance on both sides of the gutter. Allow 3 mm clearance on both sides of the gutter for Perfect Bound publications.

Proofing

- In order to accurately reproduce your digital file we require a content proof to be supplied.
- Documents must be set and proofed to the correct size.

Delivery of material

- Email preferred.
- Option to burn onto CD or DVD. CDs and DVDs will not be returned.
- All CDs & DVDs must be clearly marked and should be accompanied by material instructions including details of the original applications.
- It is also a requirement that material be delivered on time so that quality checking procedures can take place. Late material is liable to incur additional production costs. Additionally, Elsevier cannot take responsibility for the accurate reproduction of ads if material has been supplied late.
- We also accept files via ftp or secure ftp delivery sites eg, www.hightail.com or www.dropbox.com

Disclaimer

- Elsevier cannot be held responsible for the reproduction of material that does not adhere to any specifications outlined within this document.

Updated October 2015.
