MATERIAL SUBMISSION

Please supply artwork as a high-resolution PDF generated with the 3DAP compliant profile. All fonts should be embedded in the PDF file. No graphics, text or linework set to overprint. Type and important features to be included within the type area only. Avoid running type across the gutter. For headings that need to run across the gutter please allow a minimum of 3 mm clearance on both sides. Bleed is required for all display advertisements which print to edge of page (3–5 mm around all edges).

COLOUR

All files, graphics, images, and type must be CMYK (preferably utilizing a 3DAP compliant profile). Files containing Spot colours or RGB will not be accepted. Black text set to black only, large areas of solid black to consist of 40% cyan. Total ink weight should not exceed 280% and allow for a 14–18% dot gain.

Spot/PMS printing can be arranged at an additional cost.

RESOLUTION

Image resolution to be a minimum of 300 dpi at final (100%) size. Black & White Line Art – 1200 dpi at 100% print size. QR code minimum size is 13 x 13 mm and generated using a shortened URL.

DELIVERY OF ADVERTISING MATERIAL

Finished artwork can be supplied via email to j.sokolovskaja@elsevier.com or design.au@elsevier.com

For enquiries regarding advertising material specification please contact j.sokolovskaja@elsevier.com or design.au@elsevier.com or phone **02 9422 8589**

All material must be supplied on time to allow for checking procedures. Late material is liable to incur additional production costs. We accept files via ftp or secure ftp delivery sites eg, hightale.com, dropbox.com etc.

DISCLAIMER

Elsevier cannot be held responsible for the reproduction of material that does not adhere to any specifications outlined within this document.
